- 4 DUAL FUNCTION (VENTILATED PASTRY/PRALINE)
- 5 DUAL FUNCTION (VENTILATED PASTRY/DRY-HEAT)
- 6 DRY-HEAT

BRX VISTA: GELATO REVOLUTION

VISTA è l'evoluzione del banco pozzetti a glicole e allo stesso tempo la rivoluzione della vetrina gelato tradizionale. Tutto questo grazie al suo sistema di refrigerazione avanzato: **glicole + freddo ventilato**

*VISTA is the evolution of the glycol pozzetti and at the same time it is the revolution of the traditional ice cream display case. All this is made possible thanks to its advanced refrigeration technology: **glycol + ventilated cooling***

ELEVATA VISIBILITÀ E INNOVATIVA ESPOSIZIONE DEL GELATO OPTIMAL VISIBILITY AND INNOVATIVE PRESENTATION OF ICE CREAM

UNA VETRINA DUE TECNOLOGIE ONE DISPLAY CASE TWO TECHNOLOGIES

REFRIGERAZIONE A GLICOLE
+ REFRIGERAZIONE VENTILATA
GLYCOL COOLING
+ VENTILATED COOLING

TECNOLOGIA DI REFRIGERAZIONE ALL'AVANGUARDIA
la perfetta sinergia tra la refrigerazione a glicole e quella ventilata, grazie
a due diverse unità condensatrici dedicate, consente l'esposizione del
gelato senza coperchi

ADVANCED REFRIGERATION TECHNOLOGY
the perfect synergy between the glycol and the ventilated cooling, thanks to
two dedicated condensing units, makes it possible to showcase the ice cream
without lids

IL GELATO È SEMPRE AL SICURO
THE ICE CREAM IS ALWAYS KEPT SAFE

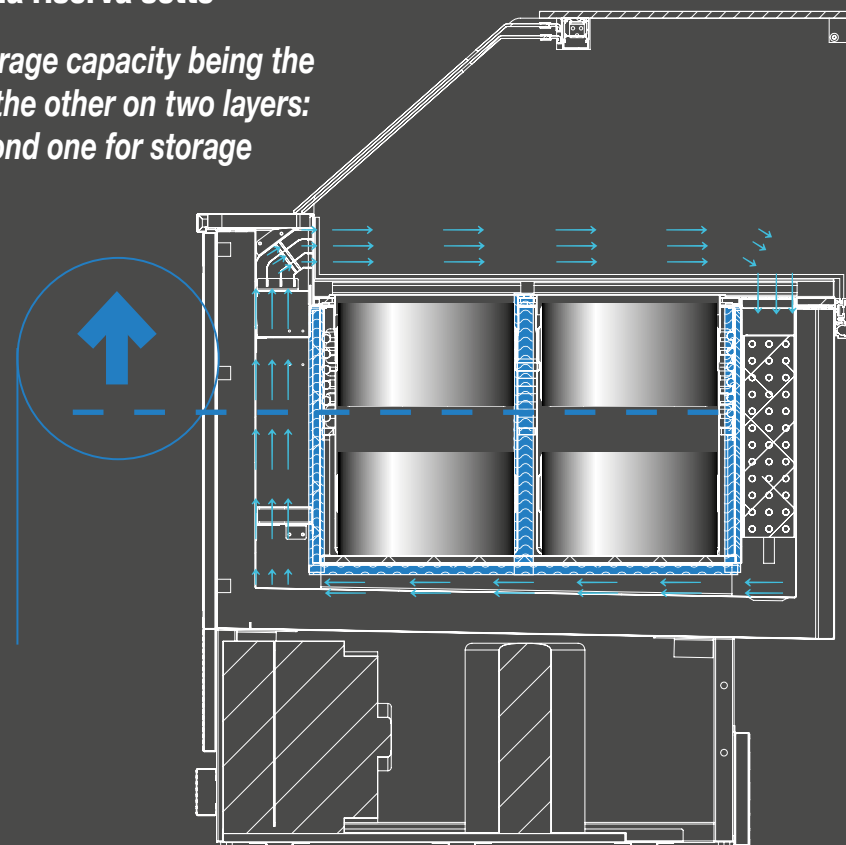

VISTA è dotata di due unità condensatrici indipendenti ma in sinergia tra loro, consentendo di continuare il servizio e di conservare il gelato anche in caso di guasto di una delle due. In caso invece di interruzione dell'energia elettrica, basta utilizzare la vetrina come un pozzetti classico abbassando le carapine e mettendo i coperchi; il glicole conserverà il gelato per molte ore

VISTA is equipped with two independent condensing units which work in synergy, making it possible to keep on serving ice cream and storing it in the event of a failure of one of the two units. Furthermore, in the event of a power cut, just use the display case as a classic pozzetti lowering the carapina pans and restoring the lids; the glycol will keep the ice cream safe for several hours

UNA VETRINA DUE MODALITÀ ONE DISPLAY CASE TWO MODES

VISTA si distingue per una grande capacità contenitiva essendo le carapine sovrapposte su due livelli: quello superiore di servizio e la riserva sotto

VISTA stands out for a large storage capacity being the carapina pans placed one over the other on two layers: upper layer for service and second one for storage

DI GIORNO IL GELATO È VISIBILE
DAYTIME THE ICE CREAM IS VISIBLE

MODALITÀ GIORNO

VISTA è una vetrina gelato a pozzetti, ma senza coperchi e con un'eccezionale visibilità del gelato

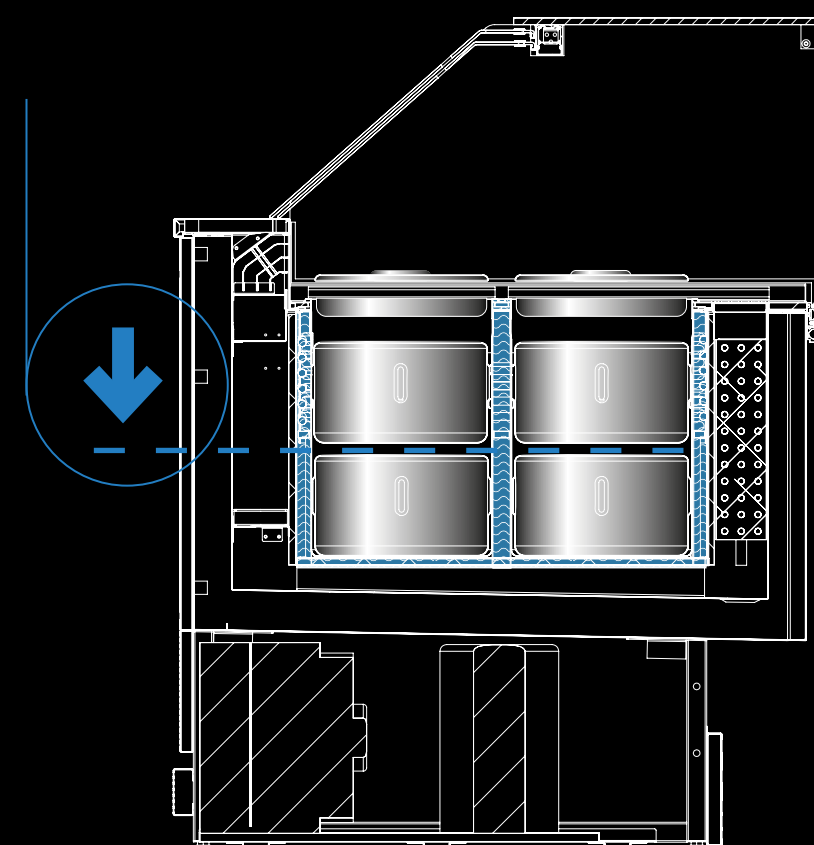

DAY MODE

VISTA is a glycol pozzetti display case but without lids and with an exceptional visibility of ice cream

NOTTE
NIGHT

NON SI DEVE RIMUOVERE IL GELATO
NO NEED TO REMOVE THE ICE CREAM

MODALITÀ NOTTE

VISTA è anche banco di CONSERVAZIONE per la notte. Al contrario delle tradizionali vetrine ventilate dove le vaschette vengono tolte, nella vetrina VISTA le carapine vengono invece posizionate su un livello più basso e si applicano i coperchi. Il sistema ventilato viene spento e il glicole conserva il gelato per il giorno dopo, garantendo un notevole risparmio economico, di tempo e spazio

NIGHT MODE

VISTA is also a STORAGE FREEZER for the night. Unlike a traditional ice cream display case where the pans are removed, in VISTA the carapina pans are placed into a low position and the lids are restored. The ventilated system is turned off and the glycol keeps the ice cream fresh for the day after, making it possible to save money, time and space

ABBASSARE

MODALITÀ NOTTE
NIGHT MODE

UNA VETRINA POLIVALENTE

in qualsiasi momento la vetrina gelato può essere convertita in vetrina PASTICCERIA POSITIVA per un uso 365 giorni all'anno, 24 ore al giorno

A VERSATILE DISPLAY CASE

at any time the display case can be turned into a PASTRY CHILLER for a use 365 days a year, 24 hours per day

DA GELATO A VETRINA PASTICCERIA POSITIVA

utilizzando la sola tecnologia a glicole (vetrina in funzione notte) e inserendo dei pianetti espositivi in acciaio inox. Il glicole permette l'esposizione dei prodotti di pasticceria favorendo anche un risparmio energetico

FROM ICE CREAM TO PASTRY CHILLER

by using the glycol technology only (display case in night mode) and adding display decks in stainless steel. The glycol enables to showcase pastry products, saving energy too
